

How to modify an email account's quota or space limit

All email accounts have a quota or space limit, which can be a specific quantity of Megabytes (MB) or Unlimited.

Once a email account's space usage reaches the space limit it won't receive new emails, but you won't lose any message, they will simply wait for space availability on the email queue.

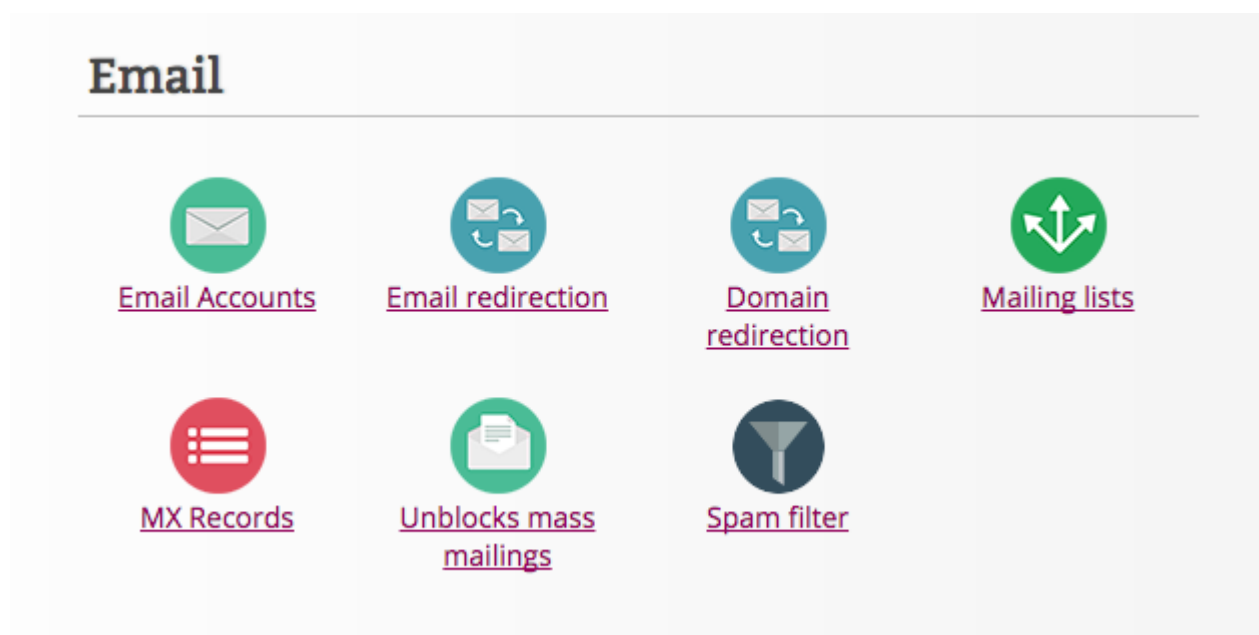

In order to modify an email account's quota follow these steps:

1 - Access your Hosting Panel

Follow instructions of How to access your Hosting Panel to access your Hosting Panel.

2 - Click on Email accounts

Look for and click on **Email accounts** icon.

3 - Click on Modify Quota

Locate your email account in the listing and click on **Modify Quota** link.

Email Accounts

Account	Fee	Drive Usage	
john@midominio123.com	Unlimited	0.69 MB	Login to webmail Change Password Modify quota Delete
richard@midominio123.com	500 MB	0 MB	Login to webmail Change Password Modify quota Delete
mary@midominio123.com	250 MB	6.76 MB	Login to webmail Change Password Modify quota Delete

4 - Define the new space limit

Enter 0 for unlimited or a specific quantity of Megabytes (MB). Click on **Send** button.

Modify space limit

Working on john@midominio123.com

Quota:

 Number of MB or 0 for unlimited
